III. Detailed Action

Claims 1-35 are presented for examination.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-10 and 21-30, drawn to managing extended attribute data, classified in class 707, subclass 102.

II. Claims 11-20 and 31-35, drawn to information handling, classified in class 707, subclass 200.

The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as managing extended attribute data without requiring the information handling of invention II. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2175

Examiner attempted to contact Attorney Joseph T. Van Leeuwen on February 9, 2004 to request an oral election to the above restriction requirements, but did not result in an election being made because Attorney Joseph T. Van Leeuwen was unavailable.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Diane Mizrahi whose telephone number is (703) 305-3806.
